WhisperGreen® 80 CFM Premium Ceiling Mounted Continuous & Spot Ventilation Fan

FV-08VKS2

WhisperGreen® 80 CFM Premium Ceiling Mounted Continuous & Spot Ventilation Fan

Constant CFM Performance

This WhisperGreen model features built-in intelligence called SmartFlow™ Optimum CFM Technology. This unique "electronic-brain" lets the fan do what was once thought to be impossible, perform at a constant CFM regardless of elbows & other factors that might hinder performance. Basically, when a WhisperGreen™ fan faces static pressure, its speed is automatically increased to ensure that the desired CFM is actually achieved. This allows the fan to perform as rated & makes for easier installation because the installer no longer has to worry as much about compromising the fan's performance.

Variable Speed Control

This fan is equipped with a CustomVent™ Variable Speed Control. This allows the fan to run continuously at a pre-set lower level of 0-70 CFM that can then be elevated to a maximum of 80 CFM when the switch is turned on. A High/Low delay timer (adjustable from 30 seconds - 60 minutes), will then return the fan to the minimum CFM level after a period of time set by the user.

Quiet Motor Means Quiet Operation

Panasonic is the first ventilation fan manufacturer to incorporate a DC motor in residential mechanical ventilation fans. The WhisperGreen series incorporates a totally

enclosed DC motor designed for extremely quiet, energy-efficient operation. The permanently lubricated motor is also engineered for trouble-free, continuous run for several years.

User-Friendly Installation

Detachable adaptors, firmly secured duct ends, adjustable mounting brackets (up to 26"), fan/motor units that detach easily from the housing & uncomplicated wiring all lend themselves to user-friendly installation. This model also features a double-hanger bar system for ideal positioning.

Energy Star® Qualified for Energy Savings

Energy Star qualified products feature super-quiet operation & high CFM-to-Watt efficiency. The Energy Star program was created to help consumers identify products that can save them money & protect the environment by saving energy. As an Energy Star partner, all our fans are Energy Star qualified & labeled accordingly.

Tired of Cold Air Coming Through Your Ventilation Fan?

This Panasonic fan has a built-in damper to prevent backdraft, which helps to prevent outside air from coming through the fan. Also, thanks to our efficient, cool running motors, it does not create excessive heat. Loose fill or batt insulation can be placed directly over the fan housing to prevent heat from escaping.

Motor Type	DC
Type of Motor Bearing	Ball
Thermal Fuse Protection	Yes
Blower Wheel Type	Sirocco
Duct Diameter (inches)	4"
Mounting Opening (inches sq.)	10 ^{7/8} "
Grille Size (inches sq.)	13"
SmartAction™ Motion Sensor	No
High/Low Delay Timer	Yes
CustomVent™ Variable Speed Control	Yes
SmartFlow™ Optimum CFM Technology	Yes
UL Listed for Tub/ Shower Enclosure	Yes
Washington State VIAQ Code	Yes
California Title 24 Compliant	Yes
Mfg in ISO 9001 Certified Facility	Yes
Energy Star Qualified	Yes
Gross Weight (lbs.)	14.2
Off Mode	Yes
Dimensions (H x W x D)	11.42" x 14.37" x 16.93"
Weight	14.3 lbs
